

The Sisters For Sisters Valentine's Day special in support of Art2Healing was a beautiful night shared by all who came to celebrate love, life, music and women all over the world who were victims of sex trafficking. It started off with a puja and a mantra dedicated to the Goddess followed by Atira and Candice lighting two candles in dedication to the women in Nepal, and their presence filled the room as well in the hearts of all present. It was a successful night with over 4000 dollars raised with 1200 dollars coming from sales of the raffle tickets.

The night was filled with amazing sisters on stage spreading their magic and baring their souls through song word and dance. There was a poignant and powerful moment during the night after intermission when Carrie Bailee shared her story and spoken word piece about surviving sex trafficking here in Australia after being sold in Canada by her father. She was sold into a trafficking ring here in Melbourne and she shared with the room how she escaped the ring and found residency here in Australia. There was not a dry eye as her story and courage resonated deeply with the audience. A Ganesh mantra was sung by Hailee which sent waves of love and support to women all over the planet overcoming obstacles and challenges and hearts in the room were swelling with love and joy and in solidarity for all the sisters worldwide. It was an emotional night for all but hearts were bridged and a connection was made with the sex trafficking victims giving a voice to their pain and struggle but also to celebrate them for the beautiful and courageous women they are.
